

## ANTI-GREENWASHING STATEMENT

Finora bank UAB is committed to preventing greenwashing practices and ensuring that all sustainability-related communications, product information, public statements, and ESG reports are:

- accurate, clear, and based on reliable data;
- not misleading to clients or other stakeholders regarding the sustainability impact of the Bank, its products, or its financed activities;
- aligned with applicable regulatory requirements, including EU legislation on sustainability disclosures and the substantiation of marketing claims;
- reviewed and approved prior to publication in accordance with internal control procedures (with the involvement of risk management, compliance, and communications functions).

The Bank also ensures that ESG statements and sustainability commitments are proportionate to the Bank's actual business practices and strategy, and that corrective actions are taken in cases of non-compliance or inconsistencies.
